

Professional Profile and Contact

Candidate	Jongmin Park
Nationality	Republic of Korea
Academic Credentials	Ph.D. in Radio Sciences and Engineering
Current Position	Principal Researcher, Electronics and Telecommunications Research Institute (ETRI)
Candidacy	Candidate for Member of the Radio Regulations Board (RRB)
Region	Region E — Asia and Australasia

Distinguished Career & Global Contributions

2000–present

Principal Researcher, ETRI Electronics and Telecommunications Research Institute

- Spectrum Management and Standardization: Leading Korea's contributions to international spectrum management and radiocommunication standardization through ITU-R and WRC processes.
- Awards and Recognition: Three-time recipient of the Minister's Award (Ministry of Science and ICT, 2003, 2014, 2020) and designated as an ICT International Standardization Maestro (2025).

1993–2000

Senior Researcher, ADD Agency for Defense Development

- Eight years of engineering experience in defense-related radiocommunication systems.
- Recipient of the National Technology Award for significant technical contributions.

The Republic of Korea presents Dr. Jongmin Park as its candidate for Member of the Radio Regulations Board at PP-26, based on his extensive expertise and proven track record in radiocommunications.

Candidate of the Republic of Korea for
Member of the Radio Regulations Board

JONGMIN PARK

Region E

Asia and Australasia

ITU Plenipotentiary Conference
2026 (PP-26)

25+ Years of Excellence in Radiocommunications

With over 25 years of experience in radiocommunications engineering and spectrum management, Dr. Park brings deep technical expertise and proven leadership in the development and application of the Radio Regulations for both terrestrial and satellite services.

- **Regulatory Expertise:** A proven track record in technical assessment and the application of the Radio Regulations, built through active engagement in ITU-R studies across six consecutive WRCs.
- **Leadership in ITU-R and WRC:** Chairing and coordination roles at WRC, CPM, ITU-R and APG, with responsibility for satellite and HAPS agenda items across six consecutive WRCs from WRC-03 to WRC-23.

Key Highlights Proven Leadership & Global Impact

CPM

Vice-Chair, CPM-27 (since 2023); former Chapter Rapporteur, CPM-23 (2019–2023)

WRC

Participated in WRC-03/07/12/15/19/23 and contributed to agenda items on HAPS and satellite services; Chair, Sub-Working Group (WRC-07)

APG

Drafting Group Chair and Topic Coordinator supporting APT common proposals for WRC preparation

ITU-R Technical Work

Author or co-author of more than 130 contributions

Satellite Coordination

Responsible for satellite network coordination on behalf of the Republic of Korea, including bilateral and multilateral coordination meetings

Vision for a Fair and Efficient Radio Regulatory Framework

Radio frequencies and satellite-orbit resources are limited natural resources governed by the Radio Regulations. Addressing critical regulatory matters between WRCs, Dr. Park is committed to upholding consistent interpretation, rigorous technical examination, and strict procedural fairness in implementing the Radio Regulations and Rules of Procedure.

If elected, he will work cooperatively with fellow Board members and give full attention to the preparation of each meeting, ensuring equal treatment for every administration.

Key Commitments

- ▶ **Consistent and Transparent Application of the Radio Regulations**
- ▶ **Rigorous and Evidence-Based Technical Assessment**
- ▶ **Independence and Procedural Fairness in Board Decisions**
- ▶ **Enhancing Regulatory Clarity through the Rules of Procedure**
