REPUBLIC OF KAZAKHSTAN CANDIDATE FOR RE-ELECTION TO THE RADIO REGULATIONS BOARD

REGION C: EASTERN EUROPE AND NORTHERN ASIA

RIZAT NURSHABEKOV

ADMINISTRATION OF THE REPUBLIC OF KAZAKHSTAN WOULD LIKE TO PROPOSE A CANDIDATE FOR THE POSITION OF A MEMBER OF RADIO REGULATIONS BOARD

Country: Republic of Kazakhstan
Date of birth: 1973
Educational Background: Almaty Institute of Power Engineering & Telecommunications, majoring in Radiocommunication, Broadcasting & Television

Mr. Rizat Nurshabekov has been working in public administration for more than 20 years and has vast experience in top governmental posts. Currently, he is the CEO of the Radio Frequency Service of the Ministry of Digital Development, Innovations and Aerospace Industry of the Republic of Kazakhstan. On behalf of the Administration of Kazakhstan, he actively participates in conferences, working groups and seminars organized by ITU, RCC and UPU.

PRACTICAL ACTIVITIES

Mr. Rizat Nurshabekov was the Secretary of the Inter-departmental Radio-Frequency Commission under the Government of the Republic of Kazakhstan, taking active part in the allocation and efficient use of the radio-frequency spectrum in the country. Under his guidance, numerous telecommunication projects essential to the telecom industry were prepared and implemented, among them:

- Frequency allocations among Kazakhstan's radio services
- A plan for the future use of the radio frequency spectrum
- National Strategy for Digitalization of the Republic of Kazakhstan
- Digital broadcasting in DVB-T2 standard
- 3G UMTS/WCDMA, LTE, 5G standards
- Methodology for calculating annual spectrum fees
- Complex of works for coordination and international protection of orbital positions for development of satellite space segment
- National mission control centers
- The "KazSat" satellite communications & broadcasting system
- Development of Kazakhstan segment of the Internet and creation of conditions to develop Kazakhstani web content

Proactive and large-scale implementation of these innovative solutions allowed Kazakhstan to move to a new level in developing telecommunication services.
