Republic of Rwanda Candidate for ITU Council 2027–2030

ITU Plenipotentiary Conference 2026 (PP-26)

9 – 27 November 2026

Doha, Qatar

Rwanda seeks re-election to the ITU Council (Region D – Africa) to continue working hand in hand with other nations in inclusive digital growth, driving innovation, and ensuring technology benefits everyone, everywhere.

Vision 2027–2030

Universal Connectivity & Inclusion: Bridge digital divides in Africa and Globally

A Secure & Innovative ICT Ecosystem: Foster cybersecurity and digital trust for fair, sustainable growth.

AI for Good & Empowerment: Promote responsible AI use, while creating opportunities for youth,women in tech, and SMEs through innovation hubs and digital skills programs.

Data-Driven Decision-Making: Advocate for the use of data and evidence to inform policies, drive innovation, and enhance service delivery across sectors.

Why Rwanda?

Host of ITU WTDC-22 (2022): Led to the Kigali Declaration on connecting the unconnected.

Rwanda co-chairs the AI for good global commission: expand access, strengthen trust, and accelerate impact.

Global AI Summit on Africa (2025): Driving responsible AI for health, education and agriculture.

Broadband Commission Co-Chair (Since 2015): Promoting universal, affordable internet access.

Smart Africa Leadership (Since 2013): Advancing digital transformation across the continent through its pillars of policy, access, e-government, entrepreneurship and sustainable development.

Let's shape a connected, inclusive digital future, together.
